

Saturday Power Hour w/CFI-Bootcamp - Eights On Pylons

Do you know fly them, and more importantly, do you know how to teach them?

The eights-on-pylons is the most advanced and difficult of the ground reference maneuvers. Because of the techniques involved, the eights-on-pylons are unmatched for developing intuitive control of the airplane.

Join us for this 1 hour presentation as Mike takes a deep dive into this all important maneuver

Open to all pilots. Valuable insights for both instructors and students in training.

Specialized subjects tailored for flight instructors, covering instructional techniques, communication skills, flight planning, safety protocols, and teaching methodologies.
