

Maneuvering Speed Explained - Saturday Power Hour Lesson w/CFI Bootcamp

Event Details

Just before the Power Hour Lesson begins check your email for the link to join the webinar

[Registration Link - Click Here](#)

Join us for this 1 hour presentation as we take a deep dive into maneuvering speed (V_a), how to calculate it, why it changes with weight, and the associated "left turning tendencies". This speed is critically important to know and understand, and it is not displayed on your airspeed indicator.

Open Mic discussion follows the presentation. Your aviation questions answered live.

All registered attendees will receive a PDF outline of the presentation whether they attend or not so please register using the link above.

Once registered you will automatically be registered for all future Power Hour presentations and receive a weekly email reminder of upcoming Power Hour Lessons. You may opt out anytime.

All registered attendees will receive a PDF outline of the presentation whether they attend or not so please register using the link above.

JOIN US EVERY SATURDAY FOR 3 HOURS OF LESSONS AND CONVERSATION

1st hour begins with a CFI centered "Power Hour Lesson" that qualifies for WINGS credit.

2nd hour will be an "open mic" discussion where attendees are unmuted and can ask questions.

During the 3rd hour, industry leaders from AOPA, EAA, SAFE, NAFI, CFI Study Group, DPE's, PilotSafety org, Learn To Fly Guy and others are invited to join the conversation.

Open to "all" pilots, students, and instructors.
