

EAA Chapter 1445 Monthly IMC Club Meeting- All Pilot Welcome - No Membership Required

Event Details

The EAA IMC Club provides a "hangar flying" experience organized around instrument flight, in order to promote safety, education, and proficiency.

Every meeting consists of a scenario presentation and group discussion about unusual or interesting charts, changed rules and procedures, and member experiences. We also have occasional guest speakers.

This Month: Dr. Peter N. Steinmetz will present and discuss a scenario regarding how trim affects different phases of flight and how to deal with trim failures.

The scenario we will discuss is titled "Trim Troubles"
