

Safety Through The Ages and Mental Health

This seminar contains two presentations in one:

1. Safety Through the Decades - we take a high-level look at how aviation safety science has evolved since 1900 to where it stands today. Wondering how swiss cheese model came about or if it is still a valid model today?
2. Pilot mental health - we will review the importance of pilot mental health through case studies and provide tips for managing mental health. As every pilot is human and has a brain (we hope) - this seminar is for you!

From US60, head east from Phoenix and exit at Higley. Head North to Falcon Drive and then head west and CAE will be on your right, North of the street. Park in the parking lot across the street to the South. From the north on 202, exit south onto Higley, turn west onto Falcon Drive. CAE will be on the north side.

If flying in, park at the transient parking near the Tower. Walk to CAE's building and call 480-703-6096 to be let in.

A message from the National FAASTeam Manager
