RSAT Runway Safety Action Team schedule :

<https://scauwg.org/lrsat-info-dates>

The RSATs are very informative and if you are pilot based at one of the airports or use it regularly, it is worth your time to attend and learn about Air Traffic Control and Airport Operations.

Look for the SPANS on www.FAASAFETY.gov

Thirty days prior to the RSAT, Air Traffic Managers are encouraged to conduct a Pilot/Controller Forum. The FAASTeam is here to help promote and assist with the Forum.

Samir Kanuga has agreed to coordinate most of these activities.

In addition to the Towered Civilian Towers listed here, ASAG would like to initiate Pilot/Controller Forums for our state's two Joint Use Airfields, Yuma and Sierra Vista.

Thanks to Joe Santoro and Fernando Morales, FAA Runway Safety and to Ron Berinstein for sharing
