

San Diego FAASTeam presents:

Ramona Airport Tower Closure and Uncontrolled Field Procedures Refresher - Urgent!

We have received final word last Friday that the KRNM (Ramona Airport) tower is scheduled to CLOSE on April 7. The result will be turning KRNM into an uncontrolled field. As local KRNM pilots (or our friends who fly in) we need to be proactive in making this transition work smoothly and safely! We are inviting you ALL to this meeting for refresher training, interaction, and lively discussion! We are planning: 1. An overview presentation of uncontrolled field regulations and recommended procedures, 2. Handout materials, 3. Current tower personnel to give you their perspective on "hot spots" and safety suggestions, 4. Approach and/or Center personnel to discuss instrument approaches at uncontrolled fields and other issues, 5. Local flight instructors with their observations, and 6. All of you who will bring your experience, suggestions, questions, and inputs! Please turn out for this important meeting!

Directions: Meeting in Hangar 302 at Ramona Airport.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area
Sign up for the FAA's safety services at www.FAASafety.gov!
