

## Pacific Coast Flyers Presents - Flying Light Sport Airplanes

Come and join in a discussion of these fabulous airplanes. We will cover the rules for sport pilots, compare these airplanes to the Cessna 150 and show you how to get the most out of flying these machines. Airplane limitations and typical systems will also be discussed. All aircraft require transition training. Discover the unique attributes operating LSA's that you should consider when performing a check out with your instructor.

**Directions:** The meeting will be held at the Palomar Airport Administration Building which is the first structure on the left as you enter the airport property. Please proceed past the building to the main parking lot which is down a short grade on the left.

### A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafetyTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
