

Avoiding Hangar Hazards

Is your hangar the model of safety and efficiency? Or has it become a dumping ground for miscellaneous parts, toxic chemicals or household overflow? Aircraft hangar safety is an important but often overlooked subject for GA pilots. In this talk we will identify a variety of hangar hazards that can result in personal injury or damage to your aircraft. You will also learn practical strategies for staying safe, organized and compliant with local and federal regulations including the new FAA Hangar Policy proposal.

Directions: I-805 South to 905, take 905 East toward Otay Mesa. Take the Britannia exit, turn left onto Britannia, turn left onto Otay Mesa Rd. Turn right at the stoplight at Cactus Rd into Brown Field entrance, turn right onto Continental St. Follow instructions at security gate to call EAA for entrance. Chapter 14 is next to Brown Field control tower.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
