

San Diego FAAS Team presents:

Mastering the Art of Instrument Navigation

Believing that safety and proficiency are developed through education and experience. Monthly meetings use real world scenarios to engage our members and allow them to share and build their experience.

For the November meeting, we will discuss an actual a IFR flight from KCRE SC, to 4B8 CT. However the flight progresses only as far as Syosset, NY area where it experiences a vacuum failure. Please bring your "Electronic Flight Bag" if you have one (ForeFlight, WingX, Go Flight, etc.) loaded with charts from KCRE to the 4B8 area to aid in the discussion of pilots options. Time permitting we will also discuss a quiz on alternate airport selection.

You do not need to be a member or instrument rated to attend.

Directions: Between I-15 and SR-163 on Aero Dr. across the street from Montgomery Field, approx 0.4 mi walking East from Gibbs or 0.6 mi, South then East from the Terminal / Transient Parking.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
