

San Diego FAAS Team presents:

Mastering the Art of Instrument Navigation

Believing that safety and proficiency are developed through education and experience. Monthly meetings use real world scenarios to engage our members and allow them to share and build their experience.

For the September meeting, we will discuss an actual scenario involving an IFR planned flight from Kalamazoo, MI (KAZO), to Shaumburg IL (06C) which has no IAP's. Yet nearby Dupage, IL (KDPA) does. However, the pilot goes missed a second time at at KDPA. Please bring your "Electronic Flight Bag" if you have one (ForeFlight, Garmin Pilot, WingX, Go Flight, etc.) loaded with charts for the area to aid in the discussion of the pilots options. You do not need to be a member or instrument rated to attend.

Directions: Between I-15 and SR-163 on Aero Dr. across the street from Montgomery Field, approx 0.4 mi walking East from Gibbs or 0.6 mi, South then East from the Terminal / Transient Parking.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
