

San Diego FAAS Team presents:

Mastering the Art of Instrument Navigation

Believing that safety and proficiency are developed through education and experience. Monthly meetings use real world scenarios to engage our members and allow them to share and build their experience.

For the June meeting, we are going try to something new and review and discuss an AOPA ASI video of a night time CFIT accident. This accident flight was from Mesa, AZ (KFFZ) to Safford AZ (KSAD). Please bring your "Electronic Flight Bag" if you have one (ForeFlight, Garmin Pilot, WingX, Go Flight, etc.) loaded with charts for the area to aid in the discussion of the pilots options. You do not need to be a member or instrument rated to attend.

Directions: Between I-15 and SR-163 on Aero Dr. across the street from Montgomery Field, approx 0.4 mi walking East from Gibbs or 0.6 mi, South then East from the Terminal / Transient Parking.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
