

San Diego FAASTeam presents:

San Diego Airspace Practice Areas and Flyways Working Group

Attention CFI's, Flight Schools, Flying Clubs and DPE's:

Join us in forming a working group of interested users to help us identify San Diego area Practice Areas and Fly ways for eventual inclusion on our San Diego Terminal Area Chart (TAC).

We will be working with the Southern California Airspace Users Working Group (<http://scauwg.org>) who has performed this for the Los Angeles Basin. They have published the details of these areas on their website including boundaries, altitudes and frequencies.

We would like to do the same for our local practice areas. For an example, see the Los Angeles Basin Practice areas here <http://scauwg.org/practice-areas>

Directions: Between I-15 and SR-163 on Aero Dr. directly across the street from Montgomery-Gibbs Airport. Proceed South from the Gibbs office, and the Transient / Terminal Parking.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Join us on Facebook: <https://www.facebook.com/groups/GASafety/>
