

Are you sure you know
when you're hypoxic?

FAA PROTE Training is coming to Gillespie Field KSEE November 20-24, 2019

Fly above 6000 feet?

Come learn about hypoxia at any of four 9:00am to 10:30am seminars. Then, learn what your hypoxic symptoms are when simulated up to 25,000 feet in the safety of FAA's *Portable Reduced Oxygen Training Enclosure* (PROTE).

PROTE flights are scheduled every 45 minutes Wednesday November 20 through noon Sunday November 24. Just meet requirements and pre-register at FAASafety.gov.

Limited Slots: Reserve your PROTE flight at FAASafety.gov.

When: November 20-24, 2019.

Where: High Performance Aircraft Hangar
at KSEE.

How: *Register at faasafety.gov.*
