

San Diego FAAS Team presents:

# **Drone Use - Balancing Public Safety and Privacy**

The crossroads of technology development and the COVID-19 pandemic is indeed an opportunity for the drone (sUAS) industry – not just to generate business, but to showcase how responsible utilization can improve public health and safety and individual lives without endangering privacy rights and civil liberties. This session will review 4th Amendment jurisprudence and offer recommendations as to how the industry can use today's unique circumstances to build community trust and enthusiasm for multitudes of drone applications.
