

San Diego FAAS Team presents:

Mastering the Art of Instrument Navigation

Believing that safety and proficiency are developed through education and experience. Monthly meetings use real world scenarios to engage our members and allow them to share and build their experience.

For the March meeting, we will discuss an actual scenario involving an IFR planned flight from Madison, WI (KMSN) to Chicago Executive, IL (KPWK). However the pilot has a altitude issue on the approach. Please bring your "Electronic Flight Bag" if you have one (ForeFlight, Garmin Pilot, WingX, Go Flight, etc.) loaded with charts for the area to aid in the discussion of the pilots options.

You do not need to be a member or instrument rated to attend.

Directions: Between I-15 and SR-163 on Aero Dr. across the street from Montgomery Field, approx 0.4 mi walking East from Gibbs or 0.6 mi, South then East from the Terminal / Transient Parking.

A message from the National FAASTeam Manager
