

San Diego FAA Safety Team presents:

Loss of Control - Inflight (LOC-I)

Join us as Capt Brad Alberts will address the topic about the leading cause of aircraft accidents and fatalities in Aviation: Loss of Control In-Flight. He will discuss the overall flight envelope parameters including; the impact of bank angle, load factor and angle of attack on stall speed. Tools for avoiding LOC-I will be offered.

Capt Brad Alberts started his flying career up the coast at KSNA where he obtained all his instructor ratings. That lead to five years with a commuter airline out of San Diego feeding passengers to United at LAX.

He then flew a Lear 55 for two years before starting a 34 year career at Flying Tigers/FedEx Express.

Time and experience as an 747 FE and 727 FO positions led up to flying the MD11. He flew both Domestically & Internationally for last 24 years with FedEx.

Ancillary Aviation Duties Include; Safety Team work, analysis of human factors and accident investigation as an important part of the 46 years he's been flying.

There will be time for Q&A after the presentation. Prior to attending a safety seminar in person, please review and abide by Current CDC, State and Local Health Guidelines
