

NOAA Aviation Weather for Pilots

We'll hear from from two Meteorologist, Adam Roser and Sebastian Westerink, both at the NWS in San Diego. Come and learn how they make the weather products we see like TAFs, forecast discussions, weather models and more. Take the opportunity to ask questions and get an insight into what to watch out for in our local area. Put a face to the person who makes the product we read almost every day and learn about other weather resources you can use that you may not have thought of. Learn about the technology they use and the associated strengths and weaknesses and what can cause a forecast to change or be inaccurate which can help you be a safer pilot.

Event Details

Thu, Mar 5, 2026 at 18:30 PDT
Solar Turbines, Kearny Mesa Facility

4200 Ruffin Road
Titan Conference Room
San Diego, CA

Contact: Paul Kortopates
