

IMC Club Meeting at Palomar Airport / EAA 286

After a brief Audio/Video presentation we ask "What Would You Do"? Everyone is encouraged to join in the discussion. Videos depicting actual flights that encountered challenges are chosen from a library provided by EAA and the presenter. In the ensuing discussion, often there's agreement on the steps to take, but that's not necessarily the goal - the value is in performing the mental exercise and developing an answer that's right for you.

Sometimes we argue it out - respectfully - and modify our plan of attack. The benefit is to think it through without the pressure of flying the plane. Pilots of all skill levels are encouraged to attend. Click the link below for more information and to register.

Event Details

Tue, May 19, 2026 at 18:30 PDT
Palomar Airport Administration Building
2198 Palomar Airport Road
Carlsbad, CA

**Lead Representative LAWRENCE
JOSEPH GODFREY n/a**

We have two scenarios for May. The first scenario reviews options after you smell smoke in the cockpit and the autopilot breaker has tripped. What's your method for handling a popped circuit breaker? The second scenario is timely because we're getting into the foggy time of year. Let's review visual and contact approaches.

Driving: Take I-5 to Palomar Airport Road. Go East 3 miles to the airport entrance. Administration building is the first building on the left as you enter the airport. Parking lot is the first left at the stop sign after you pass the administration building.

Flying: Park at transient parking or Western Flight. The administration building is a short walk to the South.
