

SD IMC Club - Mastering the Art of Instrument Navigation

Believing that safety and proficiency are developed through education and experience. Monthly meetings use real world scenarios to engage our members and allow them to share and build their experience.

For the August meeting, we will discuss an actual IMC Club scenario. The pilot encounters a Trim issue on a 90 minute night IMC flight and has to make a difficult decision on how he'll proceed. We will also review and discuss the EAA's Question of the Month. Join us with your "Electronic Flight Bag" if you have one (ForeFlight, Garmin Pilot, WingX, Go Flight, etc.) loaded with charts for the area to aid in the discussion of the pilots options.

You do not need to be a member or instrument rated to attend.

You are invited to a SD IMC Club Wings Webinar via Zoom
