This seminar we will be discussing a very important subject that is quite pertinent to the mission flying we do in Civil Air Patrol. All of our missions have varying degrees of banking an airplane whether it is in parallel search, contour tear drops, canyon turns or steep turns over a target. Capt Dave "Wendy" Thomas will be taking us through **Bank Angles - Load Factors and Flying Within Your Limits.**

From the north, take I-15 south to Mission Road then turn west and south into Fallbrook. At Orange turn left and go two blocks to Hawthorne Street. The Roy Noon Meeting Hall will be on the left.
