

Preflight Workshop

This interactive Powerpoint presentation walks you through the preflight of a Cessna 172. The audience will make notes of the items they see that are incorrect. The next segment will review the preflight and point out the items that are incorrect. We will also discuss going beyond the preflight inspection to ensure you and your aircraft are truly ready for flight.

Directions: The CAP Facility is the first building you come to on Airport Rd

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
