

The AOPA FlyQEFB (Electronic Flight Bag) and the 406MHz ELT

This will be a 45 minute orientation on the operation of the EFB in the VFR and IFR cockpit. Then there will be a brief talk on the newer generation 406 MHz ELT requirements and the impact that it has had on the old 121.5 MHz ELTs still installed in most GA aircraft.

Directions: Silver Springs Airport is located on East bound HWY 50 past Dayton.
