

FAASTeam presents:

IMC Club Meeting - Mastering the Art of Instrument Navigation

IMC Club, through its nationwide EAA-sponsoring chapters, provides organized "hangar flying" focused on building instrument flying knowledge and skills. The organization network promotes a safety culture through continued education and believes that safety and proficiency are developed through education and experience. Monthly meetings offer an opportunity to share in-flight experiences and valuable safety tips. Through the FAA Safety Program, aviation professionals offer informative WINGS presentations. You do not have to be an instrument rated pilot to attend. Membership in the Experimental Aircraft Association is encouraged but not required to attend this event. For more information and to attend this event, click the link below and register TODAY!

Directions: Park in front of building, inside the door take two right turns to the large meeting room.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
