

Stall Spin Awareness

Stall/spins account for 12% of general aviation accidents, but 25% of fatal accidents. And upwards of 20% of the fatal stall/spins occur with CFI's on board! Find out what you need to know to avoid stall/spin accident scenarios. Learn how an Angle of Attack indicator can benefit you.

Directions: Silver Springs Airport (KSPZ)

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
