

Seminar Series

Air Traffic Control 101

Join us this month for a deep dive into air traffic control at a local and regional level. Truckee Tower Manager Larry Finney and special guest Justin Martin from Oakland Center break down what goes on with aircraft separation, runway selection, drones in controlled airspace and more. This popular seminar offers pilots a rare chance to ask seasoned ATC pros anything you've ever wanted to know. Learn how to communicate better on frequency, score FAA WINGS credit and hang with your fellow aviators at this KTRK Fly Safe event!

About The Speakers

Larry Finney has been controlling traffic at TRK since the early years of the tower. He previously worked traffic at KRNO, NORCAL Approach and was a flight engineer on C130's for the USAF. Justin Martin is a NATCA representative and works Oakland Center in the airspace above Truckee.
