

Air Traffic Control 101

Join us for a deep dive into air traffic control at a local and regional level. Truckee Tower Manager Larry Finney and special guest Justin Martin from Oakland Center break down what goes on with aircraft separation, runway selection, drones in controlled airspace and more. This popular seminar offers pilots a rare chance to ask seasoned ATC pros anything you've ever wanted to know. Learn how to manage risk in and around controlled airspace, increase safety with Flight Following, communicate better on frequency and hang with your fellow aviators at this KTRK Fly Safe event!

Inside the conference room downstairs in Truckee Airport's terminal building. Also available via Zoom with advance registration at the following link: [Zoom Registration Link](#)
