

San Francisco Class B Airspace - A Flight From Truckee to the Bay Area - Hybrid Event

Event Details

Join us in Truckee for another edition of the Fly Safe Seminar Series. This month, experienced pilots Michael Golden and Leigh Golden will dive into what you should know for a trip from Truckee to the San Francisco Class B Airspace. The two will focus on safe operations into and out of San Carlos (KSQL) and will cover smart flight planning for the mountain portion of the route. They will also discuss Bay Area weather hazards, visual reporting points, departure procedures and how to request and fly the "Bay Tour." With thousands of landings at KSQL and other Bay Area airports, Michael and Leigh will bring a wealth of knowledge to pilots who may be nervous flying in the busy Class B airspace.

Also joining the discussion is TRK Tower Manager and former SQL Air Traffic Controller, Steve Ingebretson to share his insight into his time in San Carlos.
