

How to Achieve the Perfect Landing 90% of the Time, Part 4, Landing Challenges

This is the fourth in the series of presentations on landings. It is self-contained and attendance at previous sessions in the series is not necessary to obtain benefit from this presentation. The basic premise of this session is that you have done everything right, yet are still faced with formidable challenges in getting this landing to turn out right. Suggestions and tips are offered to handle these difficult situations.

Directions: Lagoon Drive to Iako Place, First building on the left within the fenced area. FAAST presentations are held in one of the upstairs classrooms.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
