

Spatial Disorientation, risks, causes & prevention (OGG CAP Bldg) Experience the 'Vertigo Chair'

We will brief the Physiological Components of Spatial Disorientation (NOTE, this will be held @ the OGG CAP Building) and we will flesh out the experience with optional rides in the Barany ("Vertigo") Chair. Rides can be Wild or Mild, your call; if you have never experienced vertigo, this IS a must. It can provide you with a profound respect for the phenomenon, and we will do so without making you ill. (We, after all, would have to clean the chair. Haven't yet had to do so, and that's a record we do not intend to tarnish!)

Directions: MAUI CAP BUILDING AT OGG

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
