

Bouncing, Porpoising, Wheelbarrowing, Ground-looping - The 'Four Horsemen of the Apocalypse'

Closer examination of landings reveal that a great number of the problems are entirely preventable, but often poorly understood. In this seminar you will learn: Why most pilots are approaching at the wrong airspeed without knowing it; Why that old rule of 'power for airspeed, pitch for' is making your life miserable; The visual cues that tell you what inputs you need to make; When 'cross-controlling' is a good thing;

Directions: On 680 exit onto Capital Expressway - travel SE on Capital. At Cunningham Ave (3rd light) turn R. Trade Winds is ahead on your R, the Terminal Building to the L.

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
