

FAASTeam presents:

Considering an Instrument Rating?

Whether you're a student pilot, a new private pilot, or you've been flying for awhile – you have probably considered getting an IFR rating. Do I really need it? How much time will it take? What will it cost?

Instrument-rated private pilots Andrea Bittau and Basil Newburn will lead the group discussion on the pros, cons, challenges and benefits involved in earning your instrument rating. They'll share the factors in their decisions to become instrument rated, and the experiences that followed. CFIs will be on hand as well to supplement the discussion.

For more information about this, or any of our weekly Safety Seminars, please visit <http://sancarlosflightcenter.com/scfc-events/>.

Directions: Located in the Skyway Building, next to the Hiller Aviation Museum. Parking and entrance behind building. Suite 215 is upstairs in the northwest corner.

A message from the National FAASafety Team Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
Sign up for the FAA's safety services at www.FAASafety.gov!
