

FAASTeam presents:

All About Aircraft Insurance

We all need aircraft insurance, but many of us lack full understanding of coverage and benefits. Renters may wonder, do I need coverage beyond my club's policy? Owners ask, why do rates vary so much among insurers? Who can fly my airplane? Am I covered if I fly someone else's airplane? It can seem overwhelmingly complicated.

Every pilot should learn about Limits of Liability and what happens in the event of an incident or accident. Better now, than later!

To help us all, we've invited Christopher Zanette of ZANETTE Aviation Insurance Service to help us clear the air. He will introduce us to the basics of aircraft insurance coverage, and will lead a lively and interactive discussion of various issues in aircraft insurance.

Note: There is a free public safety seminar, with the intent of helping us all be better informed. Mr. Zanette will not be expected to quote rates, or provide advice about specific policies or coverage of anyone in the audience. For additional followup after the seminar, be sure to grab one of his business cards provided and arrange for an individual consultation.
