

Pilot - Controller Forum - 'Night at the Museum'

The Office of Runway Safety is conducting a two part open discussion seminar on airport surface safety. We will begin with airport signs and markings. This session will include an interactive media portion which will “anonymously” reveal your skills and knowledge. We will also present and discuss Phraseology, Communications, and Procedures used by Air Traffic Controllers. The tower controllers including the Chino Air Traffic Manager will be present to discuss local pilot issues and answer your questions.

Directions: Yanks Air Museum is in the Northwest corner of the Chino Airfield. Please visit <http://www.yanksair.com> for additional information.

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
