

FAASTeam presents:

Common Sense Ideas for Buying an Airplane

Buying an airplane is supposed to be exciting, right? The process may seem overwhelmingly complicated to someone who is just starting to shop. But with a little advance planning and research, you can make it more enjoyable and less confusing. Presenter Terry McGee of Skyworks Aviation will discuss the things you should consider when buying your first (or next) airplane. He will cover how to identify the right plane for your needs, where to look for it, and how to evaluate and value the aircraft. Legal and financial considerations will also be discussed. San Carlos Flight Center is presenting this informative seminar on two dates: Wednesday, April 3rd at 7:00pm, and Saturday, April 6th at 12:30pm. It's a must for anyone who is considering buying an airplane. For more information about this and any of our weekly seminars, please visit <http://sancarlosflightcenter.com/scfc-events/>.

Directions: Located in the Skyway Building, next to the Hiller Aviation Museum. Parking and entrance behind building. Suite 215 is upstairs in the northwest corner.
