

FAASTeam presents:

# Navigating Los Angeles Airspace

If you have considered flying yourself to Los Angeles, you may have felt a bit intimidated when you first looked over the Los Angeles Sectional and TAC charts. What is the best way to navigate through this airspace? It is even more complicated than our home airspace on the San Francisco TAC! SCFC Flight Instructor Lisa Dyball presents an interactive and engaging analysis of the maze of airways, overlapping airspace, and suggested VFR flyways that make up the Los Angeles terminal area. She will discuss various arrival and departure routes so that you can safely and confidently arrive at your destination. This type of ground briefing is a must for anyone planning to make a trip into the Los Angeles area. San Carlos Flight Center is committed to promoting safety in general aviation through our evening safety seminar programs. For more information about this and any of our weekly seminars, please visit <http://sancarlosflight.com/activities-and-events>.

**Directions:** Located in the Skyway Building, next to the Hiller Aviation Museum. Parking and entrance behind building. Suite 215 is upstairs in the northwest corner.

## Event Details

Wed, Jun 12, 2013 - 7:00 pm

**San Carlos Flight Center**

655 Skyway Rd
