

Loss of Control Prevention

Recent changes to training and testing standards make us more aware of the role of the pilot in planning, preparing and managing all aspects of the flight. Last quarter's safety meeting, Sean Tucker talked about how to manage risk in a demanding flight environment of an airshow performer.

Directions: US-101 South, take CA-46E exit toward Fresno/Bakersfield. Turn left onto Airport Road at 2.4 miles, cross Dry Creek Road and turn right onto Wing Way and make another immediate "U-turn" onto Taxi Way and follow it to the terminal. The seminar will be located in the foyer area upstairs in the main terminal.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
