

FAASTeam presents:

iPads in the Cockpit: Must-Have Apps for GA Pilots

The number of aviation apps for the Apple iPad is expanding rapidly. It can be overwhelming to figure out which ones you want, which you need, and which won't be of much use to you. Pilots want apps that bring important information to us in a way that's easy to understand and quick to access in flight. Many single function apps exist, but we give bonus points for apps that combine multiple functionalities into one app. CFII Jason Miller, host of the popular The Finer Points of Flying podcast, shares his short list of the latest best aviation apps. He will give an overview of each, along with tips and tricks to help you get the most out of each one. If you have a favorite app you use in the cockpit, bring it along and share it with the group. San Carlos Flight Center was voted Best Flight School in the US in the 2013 AOPA Flight Training Excellence Awards. We are committed to promoting safety in general aviation through our evening safety seminar programs. For more information about this and any of our weekly seminars, please visit <http://sancarlosflight.com/activities-and-events>.

Directions: Located in the Skyway Building, next to the Hiller Aviation Museum. Parking and entrance behind building. Suite 215 is upstairs in the northwest corner.
