

FAASTeam presents:

Destination Acapulco: One Pilot's Adventures South of the Border

Some pilots are apprehensive about flying outside of the United States, but as SCFCCI Thomas Daniel will explain in this seminar, flying south of the border is easier than you think and opens up a whole new world of exciting destinations.

Thomas has journeyed into Mexico many times, and just recently returned from a 4,000 mile trip from San Carlos to Acapulco in November in a Cirrus SR22. He'll recap this amazing adventure and share with us his insights into flight planning, weather considerations for flying in Baja, and border crossing procedures. With photos taken on this and previous trips, Thomas will help demystify flight into Mexico and help seminar attendees find ways to operate safely, be monitored by SAR and enjoy flight across the southern border. Thomas started to fly when many years ago his wife bought him a coupon for an introductory flight lesson. He was hooked and never looked back. If he is not flying his Cirrus SR22 somewhere between Acapulco, Mexico and Prudhoe Bay, Alaska, he can be found teaching flight lessons at the Flight Center, towing or flying gliders or planning his next adventure. San Carlos Flight Center was voted Best Flight School in the US in the 2013 AOPA Flight Training Excellence Awards. We are committed to promoting safety in general aviation

Event Details

Wed, Jan 22, 2014 - 7:00 pm

San Carlos Flight Center

655 Skyway Rd

Suite 215

San Carlos, CA 94070
