

ELT's and PLB's

Personal Locator Beacons (PLBs) are becoming cheaper and more reliable. Why would a pilot need a PLB if they already have an onboard ELT? How would a PLB help a pilot in an emergency? What is a PLB anyway?

Directions: Hwy 101, exit San Martin Ave, go west one short block, (from 101 south bound, a very short block) to Murphy Ave, south on Murphy, around the west of E16, look for a sign of the Museum. Overflow parking on Murphy Ave.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.

Event Details

Tue, Apr 8, 2014 - 7:00 pm

Wings of History Museum

12777 Murphy Ave

San Martin, CA 95046
