

FAASTeam Western Pacific Region presents:

# Communicating with Monterey Tower

Does flying into a Class Charlie airspace intimidate you? Do ATC controllers make you nervous?

Erik Fleming, an ATC specialist in the Monterey Tower, will discuss the operations at MRY, sharing tips and local procedures that will help your flight in and out of MRY progress smoothly without stress. He will also answer all of our questions about communicating with tower controllers.

Erik also teaches tailwheel, aerobatics and emergency upset training. As general aviation flyers incorporate more advanced technology into their airplanes, they sometimes forget to focus on the basics of flying and keeping their heads outside the cockpit. Erik will share his experiences in emergency training to help us all become safer pilots.

**Directions:** From HWY 1 Exit on Airport Blvd and head North on Airport Blvd. Make a left Turn on Aviation Way (0.7Mi from HWY 1) and destination will be on the airport side.

#### **A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
