

FAASTeam presents:

# Rusty Pilots Seminar

Haven't flown for a while? A really long while? It's a pretty common tale in aviation. A pilot gets his or her license then something in life intervenes to interrupt flying, sometimes for years at a time. Skills atrophy. Confidence erodes. The pilot becomes "rusty". But the dream of someday getting back into their fingers, waiting to be fulfilled. Until now. It's time for all Rusty Pilots to shake off the cobwebs and build a pathway back into the air. Join us and together we will go over the steps you'll need to take to get back into the PIC seat. We'll discuss how certification requirements have changed, overview the changes to the FARs in recent years, and outline a path that we regularly use at San Carlos Flight Center to return Rusty Pilots to fully-oiled PIC competency. Note: The seminar is a high-level overview and won't provide answers to individual-specific situations. If you'd like 1-on-1 answers, you are encouraged to contact the Flight Center and ask to speak with a flight instructor. We can help you from there. San Carlos Flight Center was voted Best Flight School in the US in the 2013 AOPA Flight Training Excellence Awards. We are committed to promoting safety in general aviation through our evening safety seminar programs. For more information about this and any of our weekly seminars, please visit

## Event Details

**Sat, Jan 17, 2015 - 12:00 PST**

**San Carlos Flight Center**

655 Skyway Rd

Suite 215

San Carlos, CA 94070

**Contact: San Carlos Flight Center  
(650) 946-1700**

[info@sancarlosflight.com](mailto:info@sancarlosflight.com)

Select #: WP1559409

Representative Terry Fiala

<http://sancarlosflight.com/activities-and-events>.

**Directions:** Located in the Skyway Building, next to the Hiller Aviation Museum. Parking and entrance behind building. Suite 215 is upstairs in the northwest corner. Pilots who fly in should park in transient parking on the opposite side of the field and call the Flight Center for a ride (650) 946-1700.

**A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
