

FAASTeam presents:

Ground School Refresher: Airport Signs and Markings

Pop quiz: What is the new ICAO standard marking for a taxiway approaching a runway? What markings differ between a blast pad and a displaced threshold and what does that indicate to pilots. If it has been awhile since you sat through ground school, you may want to join us for a refresher on Airport Signs and Markings. In this safety seminar, we will review the various colors and markings and symbols used on taxiways, runways, parking areas, and areas off-limits to aircraft. Most pilots have at least an operational knowledge of their favorite airports, but travel to new airports can sometimes be jarring. Find out what has changed recently in ICAO standards so that you operate safely at your next new airport. Then look for the changes when they happen at your own airport. You will leave the seminar with a renewed understanding, and probably a few memory aids to take with you on your next flight. This safety seminar is open to current and aspiring Private Pilots, and will be of particular interest to student pilots and those who are preparing for a flight review. Presenter Herb Patten is an FAA certificated advanced and instrument ground instructor who teaches Private Pilot ground school at San Carlos Flight Center. He holds a private pilot certificate with an instrument rating, has over 600 hours and flown

Event Details

Wed, Jan 28, 2015 - 19:00 PST

San Carlos Flight Center

655 Skyway Rd

Suite 215

San Carlos, CA 94070

**Contact: San Carlos Flight Center
(650) 946-1700**

Representative Terry Fiala

into 111 different California airports. He is a board member of the San Carlos Pilot Association, SCAPA, co-founder of the Bay Area Student and New Pilot group, and an executive member of the Upwind Summer Scholarship Program steering committee. When not giving presentations he can be found in the air pursuing his aviation interest or supporting others in their flying adventures. San Carlos Flight Center was voted Best Flight School in the US in the 2013 AOPA Flight Training Excellence Awards. We are committed to promoting safety in general aviation through our evening safety seminar programs. For more information about this and any of our weekly seminars, please visit <http://sancarlosflight.com/activities-and-events>.

Directions: Located in the Skyway Building, next to the Hiller Aviation Museum. Parking and entrance behind building. Suite 215 is upstairs in the northwest corner. Pilots who fly in should park in transient parking on the opposite side of the field and call the Flight Center for a ride (650) 946-1700.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
