

FAASTeam presents:

## Why Get an Instrument Rating?

Why get an instrument rating? This question is nearly as old as flying itself. At first glance, the work required to get an instrument rating might seem to be more than it is worth. Indeed, the overwhelming majority of private pilots do not get instrument ratings. So what then, is the case for, and against making the commitment of time, resources, and effort necessary to take the instrument checkride? Come and tap the knowledge of this highly experienced instrument flight instructor as he takes you through the various pro's and con's of instrument training. Here you will learn...

- Why instrument training is required
- What is required to obtain an instrument rating
- What such training allows you to do...and not do
- How an instrument rating enhances the safety, practicality and enjoyment of your private pilot privileges—even when you are not flying IFR
- How instrument training will enhance the quality of your control of the airplane—in all flying conditions
- Why instrument training can improve the 'ride' you provide to your passengers
- Why most insurance companies require an instrument rating of any pilot to be insured in

## Event Details

**Thu, Jan 22, 2015 - 19:00 PST**  
**Trade Winds Aviation / Reid-Hillview Airport**

2500 Cunningham Ave.  
San Jose, CA 95148

**Contact: Greg Hobbs**  
**408-729-5100**

Select #: WP1559608

Representative GREGORY HOBBS

many high-performance aircraft

- How the use of an Advanced Training Device (aka 'simulator') can reduce the cost of your instrument training while improving performance and safety in normal and emergency conditions
- Most of all, why having an instrument rating is so much \*fun\*!

**Directions:** On Hwy 680, exit onto Capital Expressway. Travel Southeast on Capital. At Cunningham Ave. turn right. Ried-Hillview Terminal building is straight ahead on the left.

### **A message from the National FAASafety Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
