

FAASTeam presents:

# CFI Round Table: What the Heck is the WINGS Program?

Many older pilots may remember the first FAA WINGS - Pilot Proficiency Program in which pilots received 10 levels of colored pins for completing a series of proficiency training tasks. In 2007, the FAA revamped the WINGS program with some substantial changes, including the elimination of the wings pins. So what is the program now? How can flight instructors advise students to participate? Join us for a review of the current structure of the WINGS program and learn the role Flight Instructors play in helping pilots to maintain currency and proficiency in the basics of flight. San Carlos Flight Center was voted Best Flight School in the US in the 2013 AOPA Flight Training Excellence Awards. We are committed to promoting safety in general aviation through our evening safety seminar programs. For more information about this and any of our weekly seminars, please visit <http://sancarlosflight.com/activities-and-events>.

**Directions:** Located in the Skyway Building, next to the Hiller Aviation Museum. Parking and entrance behind building. Suite 215 is upstairs in the northwest corner. Pilots who fly in should park in transient parking and call the Flight Center for a ride (650) 946-1700.
