

FAASTeam presents:

Intro to G1000: Screens and Knobs

What does this knob do? Where did they hide the weather page? How do I get this fancy device to make me a safer pilot? For years, the Garmin G1000 cockpit display panel system has set the standard for glass cockpit aircraft. For newcomers, however, the computer displays, buttons, knobs, and joysticks can be overwhelming. Presenter and CFII Dan Dyer starts us off at the beginning and introduces pilots to the basic G1000 display screens and controls and explains what each is for. You'll find out what softkeys are and learn about the basics of the G1000 user interface paradigm. The intended audience level is beginner, so advanced functionality and system integration will not be discussed in this session. The Intro to G1000 seminars are an introductory series intended for pilots who are first learning about the G1000 avionics. No prior attendance or experience is required. This is an ideal starting point for someone who is ready to transition from traditional steam gauges to glass panel aircraft. After the seminar you may wish to schedule time in a G1000 simulator to practice what you learned before continuing on to your aircraft familiarization and checkout. Dan Dyer is Chief Pilot of San Carlos Flight Center and has been instructing for 11 years, first in helicopters

Event Details

Wed, Jul 29, 2015 - 19:00 PDT

San Carlos Flight Center

655 Skyway Road

Suite 215

San Carlos, CA 94070

Representative Terry Fiala

and now in airplanes. He has almost 4,000 flight hours and is the Bay Area's local expert in crosswind landing instruction. He regularly speaks on advanced ground school topics, and was one of the founders of the Bay Area FlyOutGroup - a social club of over 350 pilots that meet for lunches, dinners, and other fun aerial adventures. Find out more about Dan at www.sancarlosflight.com or contact him at dan@sancarlosflight.com. San Carlos Flight Center is committed to promoting safety in general aviation through our evening safety seminar programs. For more information about this and any of our weekly seminars, please visit <http://sancarlosflight.com/activities-and-events>.

Directions: Located in the Skyway Building, next to the Hiller Aviation Museum. Parking and entrance behind building. Suite 215 is upstairs in the northwest corner.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
