

FAASTeam presents:

Airport Management - Serving Pilots and the Community

Airports are an important part of any community, bringing jobs, transportation points, emergency service access, recreation, and tax revenues.

Managing an airport means dealing with government, aviation agencies, local pilots, aviation business owners, and the many neighbors who live adjacent to the field. Serving this diverse set of customers brings many challenges and forces an airport manager to become adept at a wide range of business skills, organizational skills, and people skills.

San Carlos Airport is one of two airports in San Mateo County that are managed by San Mateo County Airports Division with Gretchen Kelly as Airport Manager. Join us for an evening with Gretchen Kelly, where we look at the myriad ways the Airport Office ensures the safety of operations at the two county airports, and works to improve the relationship between the airport and the community. If you are interested in the topic of airport management, or just want to hear about the challenges and rewards of being an airport manager, please join us for this interesting discussion.

Please note: our discussion will focus on the role of the airport manager and the ways in which managers interact with their various constituencies. While some items specific to San

Representative Terry Fiala

Carlos Airport may be discussed as passing examples, this forum is not the place for airport or individual specific airport business questions or concerns to be addressed. We hope you will join us for this big-picture look at airport management. San Carlos Flight Center was voted Best Flight School in the US in the 2013 AOPA Flight Training Excellence Awards. We are committed to promoting safety in general aviation through our evening safety seminar programs. For more information about this and any of our weekly seminars, please visit <http://sancarlosflight.com/activities-and-events>.

Directions: Located in the Skyway Building, next to the Hiller Aviation Museum. Parking and entrance behind building. Suite 215 is upstairs in the Northwest corner. Pilots who fly in should park in transient parking on the opposite side of the field and call the Flight Center for a ride (650) 946-1700.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
