

Whats New and Upcoming in Airmen Testing and Training

Previously scheduled "Would You Hire this Pilot?" is cancelled and replaced by Airmen Certification Standards. The FAASTeam is tasked to educate airmen on the new Airmen Certification Standards (ACS) that will replace the Practical Test Standards. The key points to remember are that the conduct of the practical test will not change but the new ACS presents the knowledge, skills and risk management elements in an integrated ACS format. The new format will better serve evaluators, applicants and instructors and help the FAA align standards, guidance and test materials.

Directions: The County Fire Department is located across from the airport. Turn right on Broad Street, the Fire Department is located on the right hand side, #4671 Broad Street.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
