

FAAST Team Western Pacific Region presents:

# Aviation Jeopardy - Do You Know Your Stuff??

Welcome to Aviation Jeopardy, aviation's favorite answer-and-question-game for pilots! Yes, we give the answers, and then it's up to you to come up with the questions. Join us as we tackle some of these possible categories:

- FARs (from 14 CFR)
- Pilot/Controller Glossary Terms
- Airport/Runway Signs/Markings
- Traffic Pattern Procedures

How do you determine the width of a runway from the runway markings? Do you know the difference between "Roger" and "Wilco"? What does it take for you to stay current? Challenge your pilot friends to join us as we compete for the title of Southwest Conference Champions!

Your host for Aviation Jeopardy will be Rayvon Williams. Rayvon has served as the Airport Manager for the Watsonville Municipal Airport for over four years. He learned to fly in 1999 and went on to earn his instrument, commercial, and multi-engine ratings and his CFI certification.

Rayvon has been a Master CFI with NAFI, National Association of Flight Instructors, an Aviation Safety Counselor at KWVI, an FAA Safety Team Member and Lead Representative. In 2010, Rayvon was awarded the "FAAST
