

FAASTeam presents:

# **Rusty Pilot Program – Start flying again**

Click here to register for the event. If you also want WINGS credit, register again below. Life may have gotten in the way, but the dream of flight can be yours again. Returning to the skies is not as difficult as most rusty pilots think. We are inviting you back into the cockpit and we will help you get up into the air as well. Come and participate in a Rusty Pilots program with fellow lapsed pilots. We will help you understand what's changed in aviation since you've last took the controls and brush up on your aviation knowledge. The Rusty Pilots program was developed by AOPA, in partnership with Trade Winds Aviation, in order to create the best environment for getting you back into the air and becoming a part of the general aviation community again.

The Rusty Pilots program was designed to acquaint returning pilots to the changing flight environment. Discussion includes medical requirements, light sport aircraft, changes in the airspace system, newer technology, and much more. Most importantly, this program fulfills the ground instruction requirement of your Flight Review (formerly called a biennial flight review or BFR).

## Event Details

**Sat, Nov 14, 2015 - 13:00 PST**  
**Trade Winds Aviation / Reid-  
Hillview Airport**

2500 Cunningham Ave.  
San Jose, CA 95148

**Contact: Greg Hobbs**  
**408-729-5100**
