

FAASTeam presents:

# **CFI Round-Table: The New Airman Certification Standards (ACS)**

Newer is better, right? Will the new ACS completely change your flight training for your students? What does a CFI need to know about the latest changes to flight training?

The ACS, Airman Certification Standard, builds off the approach incorporated in the PTS which explicitly defines the performance metrics for each flight proficiency element listed in 14 CFR part 61 and applies that to a unifying document that covers not only the practical test elements but the knowledge test elements. The ACS incorporates and supersedes the PTS.

The newly developed ACS enhances airman testing by defining the specific elements of aeronautical knowledge, skill and risk management needed to support each task in the Areas of Operation. By presenting the elements of knowledge, skill, and risk management in the integrated ACS format, the ACS approach better serves the applicant, the instructor, and the evaluator. In addition, the ACS approach will enable the FAA to create and maintain a clear link among the regulations, knowledge/skill performance standards, guidance, and test materials.

This CFI Round-Table session is part of our standard monthly CFI Round-Table series, in which we invite flight instructors from around the

## Event Details

**Mon, Jan 11, 2016 - 15:00 PST**

**San Carlos Flight Center**

655 Skyway Road

Suite 215

San Carlos, CA 94070

**Contact: San Carlos Flight Center  
(650) 946-1700**

[info@sancarlosflight.com](mailto:info@sancarlosflight.com)

Select #: WP1566339

Representative Jonathan Slocum

Bay Area to share tips and ideas with their colleagues. All CFIs are invited to participate.

**Directions:** Pilots who fly in should park in transient parking on the opposite side of the field and expect to walk about 10 minutes (.5 mile) to the Flight Center. Suite 215 is upstairs in the northwest corner. On occasion, rides may be prearranged through San Carlos Aviation and Supply.

**A message from the National FAASafety Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
